AMS News Notes

The Annual Seventh Grade trip was held on Monday, May 18, 1981. Students visited the National Zoo, in Washington, D.C. observing the variety of animals from around the world. At the Natural History Museum of the Smithsonian Institute, they got a glimpse of what life may have been like in the past millions of years. There were exhibits of dinosaurs, sea life, mammals, birds, ancient cultures, etc., etc. So much to see!! Rock and mineral displays were also enjoyed. The gems, including the Hope Diamond, were breath taking.

Besides visiting the zoo and the museum, students enjoyed being together for the long bus ride and the stop at McDonald's at Warrenton. Everyone cooperated since it would take awhile to fix food for about 220 people.

It's terrific to know you can take so many of the students of Appomatox County on an outing and everything go so smoothly. Thanks and congratulations go to each student and chaperone who participated to make the trip successful.
